(ASSOCIATION OF MALAYSIAN EXPRESS CARRIERS)**

Date : 31 May 2021
Ref num : AMEC/Members/2021/4

ANNOUNCEMENT

On 28th May 2021, the Government of Malaysia announced the implementation of Movement Control Order (MCO) 3.0 in the country from 1st until 14th June 2021 . Following this, service levels of courier companies have been affected due to the cancellation of flights between Peninsular and East Malaysia as well as the movement restrictions.

The safety and health of our members' employees and customers are our members' utmost priority at all times and our members have and shall continue to endeavour to implement precautionary measures pursuant to Covid- 19: Guidelines and Preventive Measures on Postal Service Providers licensed under the Postal Services Act 2021 as prescribed by the Malaysian Communications and Multimedia Commission (MCMC).

The Association of Malaysian Express Carriers (AMEC) wishes to highlight that the implementation of restrictions and precautionary measures in place under the MCO 3.0 as well as measures by other countries worldwide to limit the transmission of Covid-19 has caused disruption to the provision of postal services which are beyond the control of postal service providers. Due to this, delays or inability to deliver a mail or parcel are to be expected.

AMEC is therefore declaring a situation of force majeure until such time the Covid-19 pandemic is contained and transportation services return to a state of normalcy. Whilst our members will use their best endeavours and efforts to continue to provide postal service during the current Covid-19 pandemic and assist its customers in keeping their supply chains up and running, our members reserve the right to review and/or modify its services based on the prevailing circumstances consequent to the Covid-19 pandemic.

On behalf of;
Persatuan Syarikat Penghantaran Ekspres Malaysia
(Association of Malaysian Express Carrier – AMEC)

Mr Teong Teck Lean
President
